IBM SKILLSBUILD

SKILLS - BASED TRAINING

Pratham InfoTech Foundation, in collaboration with IBM, has launched an initiative to enhance youth skills development through workshops in colleges and institutes. These workshops provide comprehensive training in Artificial Intelligence Fundamentals (AI), Career Management Essentials, and Information Technology (IT) Fundamentals. Participants can choose a course from the IBM SkillsBuild platform, which offers a variety of courses tailored to their interests and career goals. Upon completion, participants receive an industry-recognized IBM SkillsBuild certification and job-seeking participants receive placement assistance. This initiative aims to empower the next generation of professionals with the skills needed for the future.
